Rehabilitative Behavioral Health Services Software

Watch a demo movie (unzip the file and play the .exe file):

www.mds-computer-services.com/RBHS/RBHSDemoMovie.zip

See how you can mass enter Clinical Notes with one button and have all your data, student info, Diagnostic Assessments, Clinical notes, IPOC/Treatment Plans, reports and billing information all in one place!!!

Requirements:

- 1) Shared network drive (preferably a Virtual Machine) 10 Gigs or less. The data file will reside here and be shared by all users OR SQL SERVER (free or full version) as option two for data.
- 2) User desktops (application) - Microsoft Office (any version)
- 3) User desktops - Microsoft Outlook or GroupWise (Optional not reqd, only if wanting automated emails from RBHS)
- 4) User Desktops – Access 2007 SP1 or higher(Optional). If Access 2007 is not installed, a free copy of Access 2007 Runtime is included in the software.

*****We also have an application (X12) that creates electronic files for SC Medicaid submissions. No more manually entering claims on their website!**
